PROJECT

🖼 Preronaa – Full-Stack Social Image Sharing App

A Pinterest-inspired digital pinboard app built with Next.js 15, MongoDB, NextAuth, and Cloudinary. Users can create, edit, and delete image pins with captions, like/comment on pins, follow/unfollow others, and manage profile info. Integrated full-text search, password reset via email, and secure auth using JWT & bcrypt. Designed for performance and aesthetic with Tailwind CSS and shadcn/ui.

⚙ TypeSafe REST API with JWT Auth & Prisma (Hono + TypeScript)

A fully functional type-safe REST API built with Hono and TypeScript. It includes JWT authentication with HttpOnly cookies, password hashing using Node.js crypto, and full CRUD operations for both User and Post models with a relational setup powered by PostgreSQL and Prisma ORM. This project is designed as a lightweight, high-performance backend foundation for modern web applications or for learning production-grade backend patterns with Hono.
